

Solid

- ↳ talk about it → analyse + understand ✓
- ↳ we will do an exercise
- ↳ bad code → working
- ↳ good code → Solid compliant

Solid → principles
S.O.L.I.D

Decoupling

(X) highly coupled

decoupled system →
loosely coupled system

readable ✓
maintainable ✓

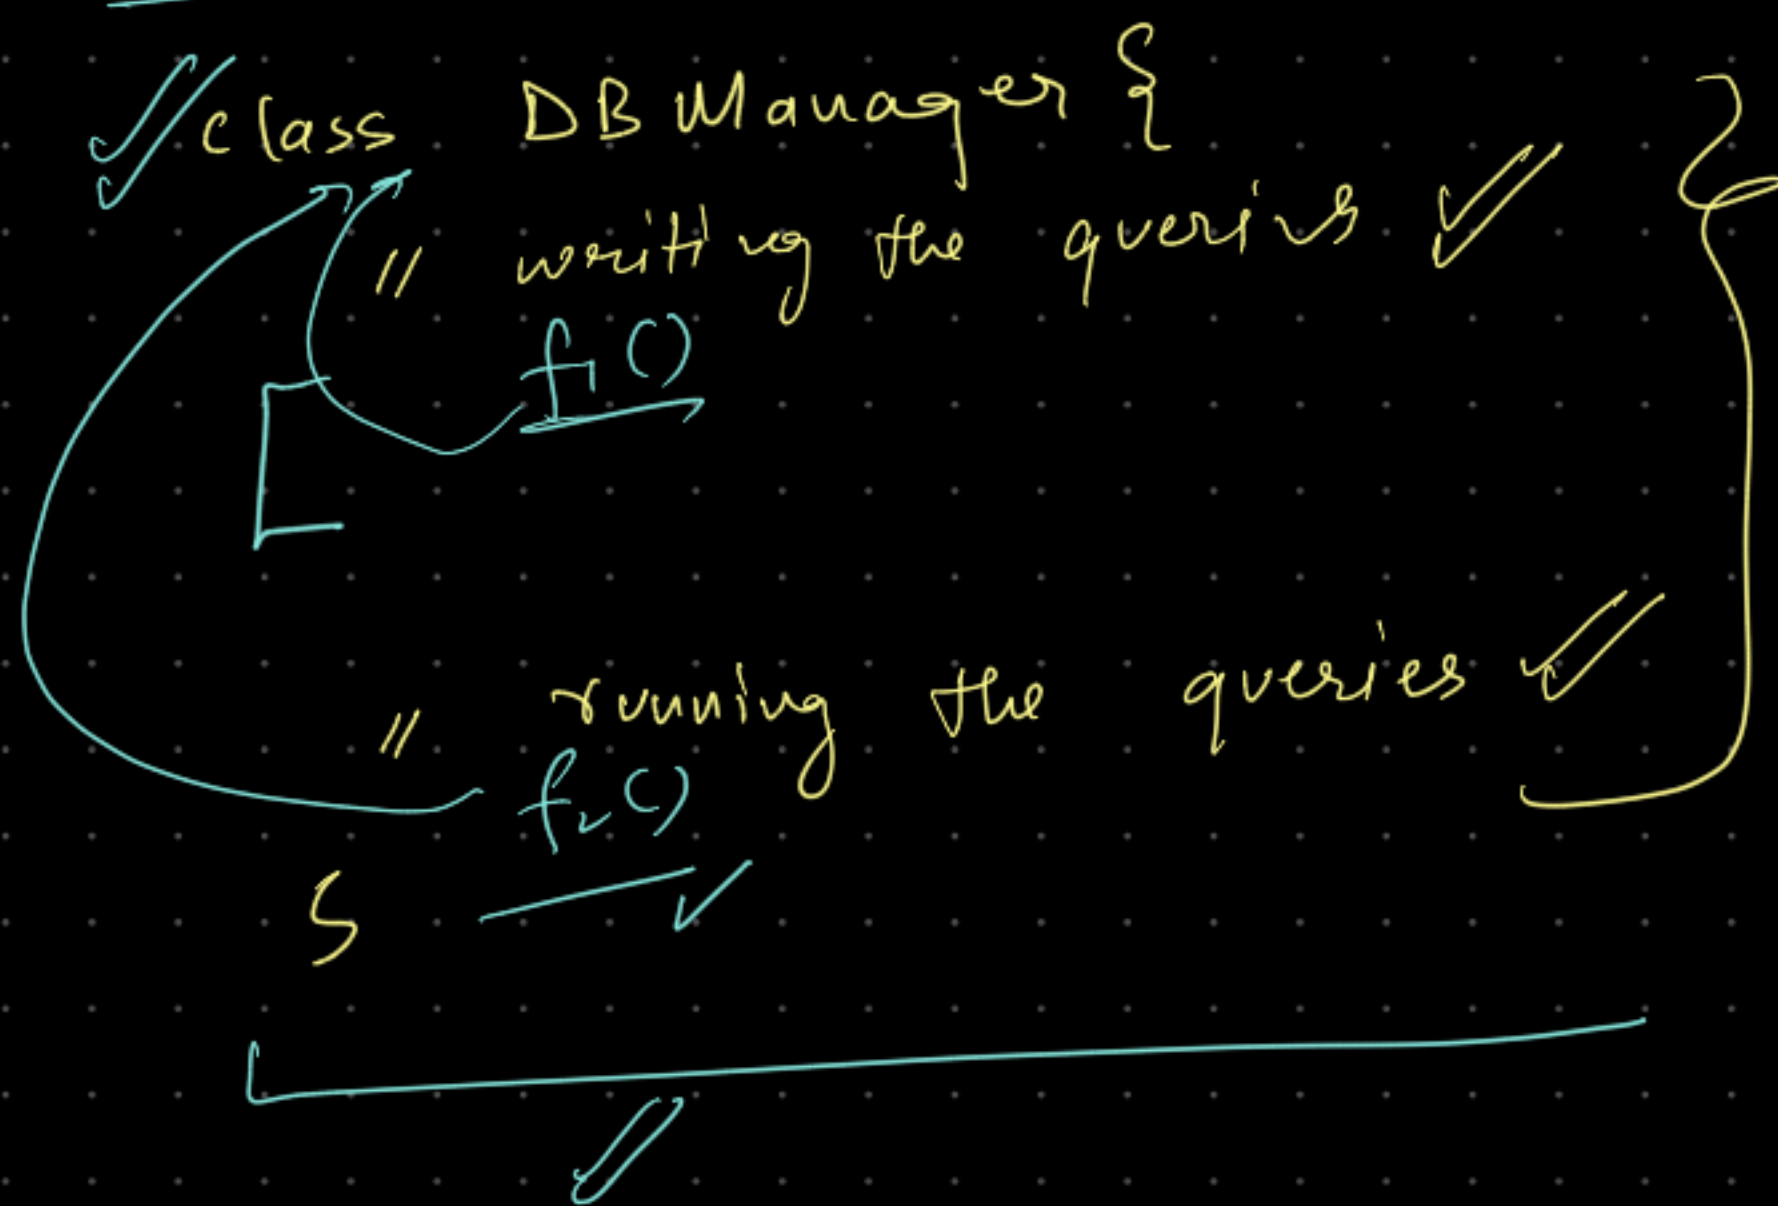

bugs ✓
errors ✓

Aim → people touch the code
as less as possible

SOLID → Liskov substitution

only annoying part

S → single responsibility → class

```
class DBqueryManager {  
    // write queries f1()  
}
```

```
class DBqueryRunner {  
    // Run queries f2()  
}
```

SOLID → open-close-principle

↳ class → extension → inheritance
↳ ~~modification~~
